

## ACR Fee Schedule

Account Opening Fee and Annual Account Fee (Project, Transaction, Corporate)	\$500
Listing Fee for projects using California ARB protocols	\$750
Listing Fee for projects using ACR methodologies	\$1,000
Screening fee for eligibility of CDM methodologies	\$2,500
Review fee for methodology market and technical analyses and information	\$2,500
Review fee for new methodologies and modifications to ACR-approved methodologies <sup>1</sup>	\$7,500
Scientific peer review fee for new methodologies and methodology revisions <sup>2</sup>	TBD
ACR verifier application fee <sup>3</sup>	\$2,000
Issuance Fee (per offset) <sup>4</sup>	Free
Activation Fee (per offset) <sup>5</sup>	\$0.15
Transaction Fee (per offset) <sup>6</sup>	\$0.02
Cancellation Fee (per offset) <sup>7</sup>	\$0.03
Retirement Fee (per offset)	\$0.02
Project Transfer Fee (per tonne CO <sub>2</sub> -e) <sup>8</sup>	\$0.08

<sup>1</sup> The ACR methodology review fee includes two rounds of ACR internal review. The methodology review fee will be charged again for additional reviews, if necessary. Methodology modifications and new methodologies will require scientific peer review at additional fees.

<sup>2</sup> The cost for scientific peer review is determined during the methodology review based on the complexity of the methodology and resulting time and expertise required for the scientific peer review process.

<sup>3</sup> Applicable for IAF verification bodies that wish to apply to verify offset projects for registration on ACR. Not applicable for ARB approved verification bodies to perform offset verification services for projects developed under ARB compliance offset protocols.

<sup>4</sup> Offsets will be issued without charging issuance fees, however, issued offsets will be considered “inactive” and not able to be transacted, retired or cancelled until “activated” by the Account Holder.

<sup>5</sup> The activation fee is a one-time fee charged per offset and billed to the project account when the offset activation is initiated by the account manager or ACR. Offsets are activated upon receipt of payment.

<sup>6</sup> Billed to transferee

<sup>7</sup> Offsets will be cancelled upon request of the account holder for conversion to ARB Offset Credits or by ACR for removal from the registry.

<sup>8</sup> Projects that submit listing information to ACR under ARB compliance offset protocols and then transfer the project to another OPR before credits are issued will be invoiced a per tonne fee for the volume of credits that would have been issued by ACR that reporting period. The volume will be a good faith estimate agreed to by the parties and payment is due within 30 days of transferring the project. ACR will invoice for any material difference from actual volume once credits have been issued by the OPR.
